HWASHIN TECHNOLOGY

The Most Powerful Bench-top Ultrasonic Cleaner **POWERSONIC 400 Series**

WHAT IS ULTRASONIC CLEANING?

As ultrasonic sound waves from transducer element make low and high pressure state in solution repeatedly, microscopic bubbles are formed and imploded depending on the pressure status. Ultrasonic energy emitted at this time removes even the most stubborn dirts and contaminants without any damage. Heat enhances the process. The key factor in cleaning effectiveness of an ultrasonic system is cavitation. The greater the cavitation intensity of the liquid is, the better the cleaning results will be.

FEATURES

- » Powerful and reliable cleaning
- » Built-in microprocess controller
- » Selectable use with ultrasonic power controller (3 steps)
- » Built-in digital thermometer and timer to set optimum condition for cleaning
- » Easy to read operation status on digital display
- » Built-in drain valve unit
- » Using a silicon rubber heater for durability and stability
- » Built-in alarm function for noticing operation stop
- » CE-certified

APPLICATIONS

- » **Medical and Dental Labs** : Hypodermic needles, Cannulae, Surgical instruments, Blood oxygenators, Dental instruments, Dentures, Plates
- » **Scientific Labs** : Laboratory glassware, Test tubes, Pipettes, Optical and contact lenses, Eyeglass frames, Components
- » **Jewelry** : Watches, Clock movements, Gemstones, Pendants, Chains
- » **Industry** : Switches, Gears, Nozzles, Relays and motors, Bearings, Sieves, Metal and plastic parts
- » **Electronics** : Printed circuit boards, Lapping heads, Capacitors, Packaging components, Quartz crystals
- » **Chemical Experiments** : Degassing of solution, Dissolution of powdered sample

SPECIFICATIONS

| Model | 405 | 410 | 420 |
|-------------------|------------------------|-----------------|-----------------|
| Transducer | Industrial BLT Type | | |
| Time Range | 0~99min(Digital) | | |
| Temp. Range | 0~50°C(Digital) | | |
| Frequency | 40 KHz | | |
| Housing Material | ABS | | |
| Bath Capacity(ℓ) | 5.7 | 10.0 | 20.7 |
| Bath Size(mm) | 300 x 155 x 150 | 300 x 240 x 150 | 500 x 300 x 150 |
| Overall Size(mm) | 500 x 285 x 255 | 510 x 375 x 275 | 720 x 450 x 275 |
| Required Power(W) | 350 | 500 | 700 |
| Net Weight(Kg) | 7 | 9 | 14 |
| Voltage | 100 to 240VAC, 50/60Hz | | |

Options(Solid/Perforated Tray)

Sister Model(POWERSONIC 600 Series)
